

Lawnton State School Song

Past the river pine
You'll find a place divine
Alive with learning, safety and respect.

Greeting everyday
With a smile to pave the way
With a chance to make
Today the best one yet.
In yellow white and blue
We all endeavour to
Make the most of opportunity
We go for gold each day
And strive to show the way
A shining star, a school community.

Together
We're making history
At Lawnton were making history
From many lives we come
Together to work as one
To learn the lessons
Work hard and have fun.
Each and every day
Were looking for the way,
To shape the future bright
Just like the sun.

In yellow white and blue
We all endeavour to
Make the most of opportunity
We go for gold each day
And strive to show the way
A shining star a school community.
Together
We're making history
At Lawnton were making history
